

QUALITY POLICY STATEMENT

Management and staff at MCH Electrical Systems Ltd are dedicated to the principle of never ending improvements in product quality, reliability & customer service excellence.

Our principal aim is to always supply to our customer's first-class quality, reliable products with unrivalled levels of customer service that conform exactly to stated, agreed specifications, order requirements and any other underpinning relevant statutory or regulatory requirements.

The establishment of our Quality and Environmental Management System (QEMS) is therefore the foundation to base a company culture committed to continual improvement.

Our QEMS is based on the requirements of BS EN ISO 9001 and 14001, and the company is fully committed to fulfilling these and other pertinent agreed requirements. The system has been developed to enable full integration of in-house, product, industry best practice and client specific requirements.

Our QEMS provides a risk-based approach to thinking, managing opportunities and mitigation of risks, including the elimination of product / service quality defects or other potential quality issues at the earliest stage possible. This in turn improves the overall efficiency of the organisation and supports with the achievement of the established quality objectives and customer satisfaction.

Top management will demonstrate leadership and commitment through the implementation of the QEMS, including the formulation, monitoring and measurement of quality objectives.

This policy will be communicated to all employees as a minimum, and when requested to, stakeholders and or interested parties.

Top management will review this policy and formulate QEMS objectives during management reviews to ensure its integrity, effectiveness, compatibility and alignment with the context and strategic direction of the organisation.

Signed:

Dave Morgan
Managing Director.

ENVIRONMENTAL POLICY STATEMENT.

The Management team of MCH Electrical Systems Ltd regards the promotion and preservation of the environment as a mutual objective for Management and employees at all levels.

We are fully committed to protecting and continually improving the quality of our working and surrounding local environments and, are committed to working pro-actively with, and communicating this policy to our employees, customers, suppliers, sub-contractors and all other external influences / interested parties to achieve a safer, cleaner, healthier and sustainable environment, which will meet present needs, future needs and regulatory requirements.

The objectives of this policy are to:

- Reduce the production of waste and encourage wherever possible it's re-use or re-cycling.
- Encouraging greater staff involvement through energy awareness training and the understanding of environmental issues and continual environmental improvements.
- Encouragement of staff to become more aware, efficient and sustainable in their use and the preservation of energy.
- Evaluate environmental impacts when considering new products, plant, vehicles, equipment, buildings and processes.
- Prevent pollution and nuisance.
- Manage the correct safe and effective disposal of waste materials through approved agencies.

MCH Electrical Systems Ltd will comply with environmental laws, legislation, regulations and other requirements relevant to our business and will monitor our office administration, production, assembly, warehousing, transport and site processes to ensure that the company's operations are effectively managed and controlled in accordance with the requirements of BS EN ISO 14001 and BS EN ISO 9001.

We are committed to the continual improvement of our QEMS that supports the enhancement of our environmental performance.

This policy will be communicated to all employees as a minimum, and when requested, stakeholders and or interested parties.

The management team will formulate environmental improvement objectives at least annually during management reviews and will ensure the routine monitoring, measurement and continual improvement of the QEMS management system and performance.
